Parent Surveys

In January, parents were asked to complete and return their surveys. We thank those of you who did, and appreciate your time in doing so.

We'd like to address a few of the comments that were received, and truly thank you for all of the feedback which was provided.

More supervision...

As a licensed child care facility, our ratio for a school age program is 14 to 1 (14 children to 1 teacher qualified staff). Throughout our program day, we frequently check our head count to be sure that we are within ratio, and do our best to make sure that all children are included and enjoying themselves during their time here.

Social Interaction and Politeness...

We integrate social skills into each activity we provide for the children. We take time to problem solve various situations and speak to the children regarding proper behavior, and using kind words rather than saying things to hurt others, or resorting to physical violence. We use positive praises to keep children encouraged, lift self-esteem, and set the example. ‘Please’, ‘thank you’, and ‘excuse me’ are reminders during appropriate times.

How my child is doing in the program...

Parents are always more than welcome to stop in and visit, or speak to Lori or See regarding any concerns or issues you may have regarding your child's progress. We are always happy to address any concerns you have, listen to your suggestions for program, and hear about how we may better serve your child's needs. All matters are taken seriously and addressed in a respectful and prompt manner.

The staff and I THANK YOU for your positive feedback and support to our program. We appreciate your business, and enjoy working with your children.
